## Using the Chromecast screen

All rooms are equipped with a TV screen with Chromecast, which will allow you to connect your electronic media on the big screen

How to start the Chromecast :

1. Turn on the TV with the remote control and press the button 
2. Scan the QR code with your cell phone or connect to the indicated network with the provided password
3. Choose your content from your device, it will then be displayed on the screen

Good to know!

Our beloved Netflix will not work with the Chromecast for the time being for reasons imposed by the platform itself... We're sorry about that!

## No sound on TV?

If you notice a lack of sound, do not hesitate to check that the sound source is the TV speaker and not the headphones. To do this, activate the volume and move the cursor to the right or left, paying attention to the type of volume bar displayed on the screen.

Of course, we remain at your disposal at any time if needed!
